Our

Agreements

# Agreement PLANS

Weavers Web Solutions Pvt. Ltd. provides a variety of development and support service plans to work with and gives you the flexibility to choose the best-suited one for you.

Here are the details of the different service plans we provide :

Discovery Service Agreement

Hourly Agreement

Fixed Cost Agreement

Dedicated Resource Agreement

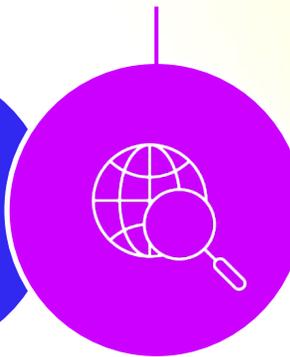

Monthly Retainer Agreement

Support Level Agreement

SEO, SMO, Digital Marketing

# Discovery Service Agreement

## What is this agreement?

Suppose you have a product idea or vision or a problem in your business you want to solve, but you are not ready yet with all the detail on what will be the features, what will be the revenue generation model etc. This service plan will help you to identify the complete scope of work for the development of the product.

## Who is this agreement for?

If you have the vision or idea of what you want to build but you are not yet there with the full scope in order to start the development, this is for you. This will help you to freeze the requirement and get it ready to start the development. This will also give you a much better idea about the expected cost of development.

\* Business requirement document & Product requirement document are not included in this, it can be provided for an extra cost.

## What is included in this agreement?

- Dedicated discovery engineer for multiple sessions to guide you to finalize the product requirement
- Creation of Wireframe
- Creation of User requirement document
- Creation of Business requirement document\*
- Creation of Product requirement document\*

# Fixed Cost Agreement

## What is this agreement?

The Fixed cost agreement is the model where you know how much you need to pay and how long you need to wait for the completion of the project before even starting the project.

## Who is this agreement for?

When you are fully ready with what you need, that means you have a complete scope of work or product requirements or user stories, then this is the best model for you. Here you can get the exact budget and timeline before starting the project.

## How much will it cost?

The cost for this model will depend on the requirement you have.

## What is included in this agreement?

- Brand design
- Application (mobile/web) UI/UX design
- Mobile application development
- Web application development
- Website development
- Quality analysis
- Server setup/maintenance
- SEO & digital marketing
- Data entry

# Hourly Agreement

## What is this agreement?

The hourly agreement is the model where dedicated resources work in the surveillance of any tracker with a fixed hourly rate.

## Who is this agreement for?

If you are a person or a company with technical knowledge, or you have a project manager and want to do some work done by some external resource(s) or a team, then this is the model you should move forward with.

## What is included in this agreement?

Depending on your requirement we can provide resources with any capabilities you are looking for, like:

- Brand design
- Application (mobile/web) UI/UX design
- Mobile application development
- Web application development
- Website development
- Quality analysis
- Server setup/maintenance
- Project management
- Data entry

The resource(s) will work for 8 hours a day, Monday to Friday. (Saturdays and Sundays will be off.)

# Dedicated Resources Agreement

## What is this agreement?

The dedicated resource agreement is the model where specific dedicated resources work for you the entire month at a fixed cost. Here you will get an employee of your own without the headache of logistics.

## Who is this agreement for?

If you are a person or a company looking for some external resource(s) or a team with specific expertise for the long term, this is the model you should go with.

## What is included in this agreement?

Depending on your requirement we can provide anyone with the expertise you are looking for, like:

- Application (mobile/web) UI/UX design
- Mobile application development
- Web application development
- Website development
- Quality analysis
- Project management

The resource(s) will work for 8 hours a day Monday to Friday. (Saturday and Sunday will be off). They will get 3 leaves per quarter other than company-wide 12 holidays throughout the year. The holiday calendar will be shared when the agreement will be signed off.

# Monthly Retainer Agreement

## What is this agreement?

The monthly retainer agreement is the model where non-specific dedicated resources work for you for the entire month at a fixed cost. Here you will get the flexibility of changing the resource anytime. Suppose you have some work for a month but that cannot be done by one individual. It needs knowledge of multiple technologies. So different people will work for you for a month but the total work will be as of 1 resource and payment will be for 1 resource.

## Who is this agreement for?

Suppose you are a person or a company with technical knowledge, or you have a project manager and want to do some work done by some external resource(s) or a team with the flexibility of changing the resources in the middle of the month. In that case, this is the model you should go with.

## What is included in this agreement?

Depending on your requirement we can provide anyone with the expertise you are looking for, like:

- **Application (mobile/web) UI/UX design**
- **Mobile application development**
- **Web application development**
- **Website development**

The resource(s) will work for 8 hours a day Monday to Friday. (Saturday and Sunday will be off). They will get 3 leaves per quarter other than company-wide 12 holidays throughout the year. The holiday calendar will be shared when the agreement will be signed off.

# Support Level Agreement

## What is this agreement?

The support level agreement is the model for the completed projects. Any big application with a good number of customers needs support to manage and maintain it. That is the sole purpose of this agreement.

## Who is this agreement for?

If you already have an application with a good number of customers, this is what you need.

## What is included in this agreement?

There are various types of support you may need for your application. For example:

- With the popularity of your application, the number of users will also increase. So the server may act weird depending on the number of hits. You need someone to monitor its performance and depending on the situation act on it.
- You may need to scale up the server depending on high usage.
- You may need to fix bugs or problems found by your customers.
- You may need to update the codebase after the launch of new versions of the browser, iOS or Android.
- You may need to update the libraries or SDK used in the application when they will get deprecated.

# SEO, SMO, Digital Marketing

## What is this agreement?

This agreement is the model for the completed projects. Any application needs SEO, SMO, and Digital Marketing to make it popular and bring more customers. That is the sole purpose of this agreement.

## Who is this agreement for?

If you already have an application and you need to make it popular or attract more traffic then you definitely need this.

## What is included in this agreement?

There are various ways that can be used to achieve your goal. For example:

- On-page optimization like Website Structure Optimization, Meta Tag Creation & Optimization, XML Sitemap Creation, Robots.txt Creation + Updation, etc.
- Off-page /Link Buildings like Local Business Submissions, Blog/Article Writing & Submission, Google Penalty Check, Press Release Circulations, etc.
